Dimmable  
optional

50.000  
operating hours

Any RAL color  
possible

PowerFactor  
>0.9

## ABOUT THE DISCGLEAM PENDANT

With the numerous possibilities of the DISCgleam pendant, the lighting solution is applicable in many spaces. Not only can you choose the desired diameter, but also the configuration, optics, and finish. Depending on the activities in a room, the color temperature can be easily adjusted through the Tunable White function, with the DISCgleam offering a range from 2200 to 5000 K (Kelvin). The light intensity is also dimmable according to preference. When it comes to design, all RAL colors are available.

CE IP20
